

**What we're going to cover  
(and what you'll finish with)**

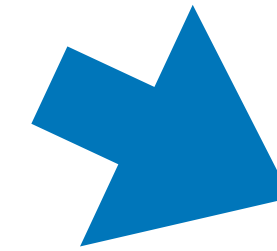

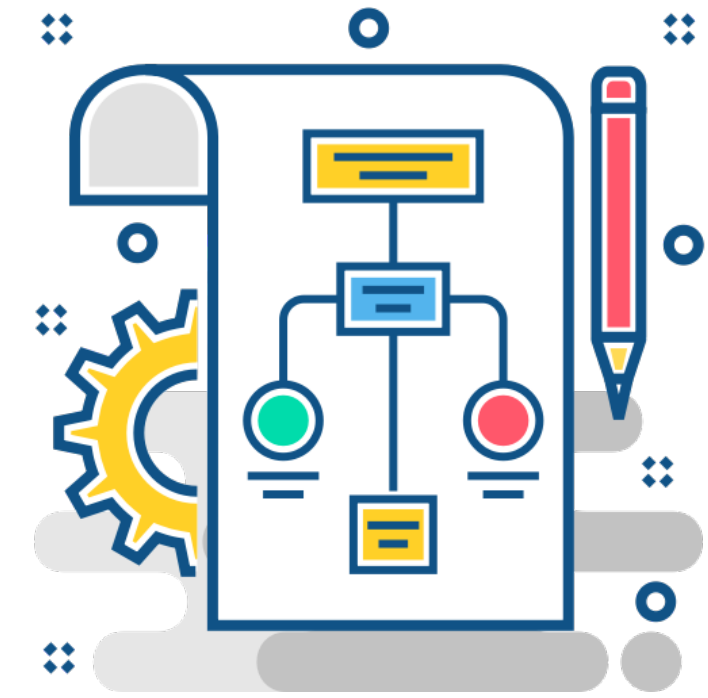

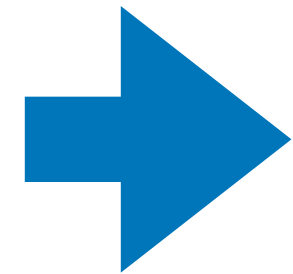

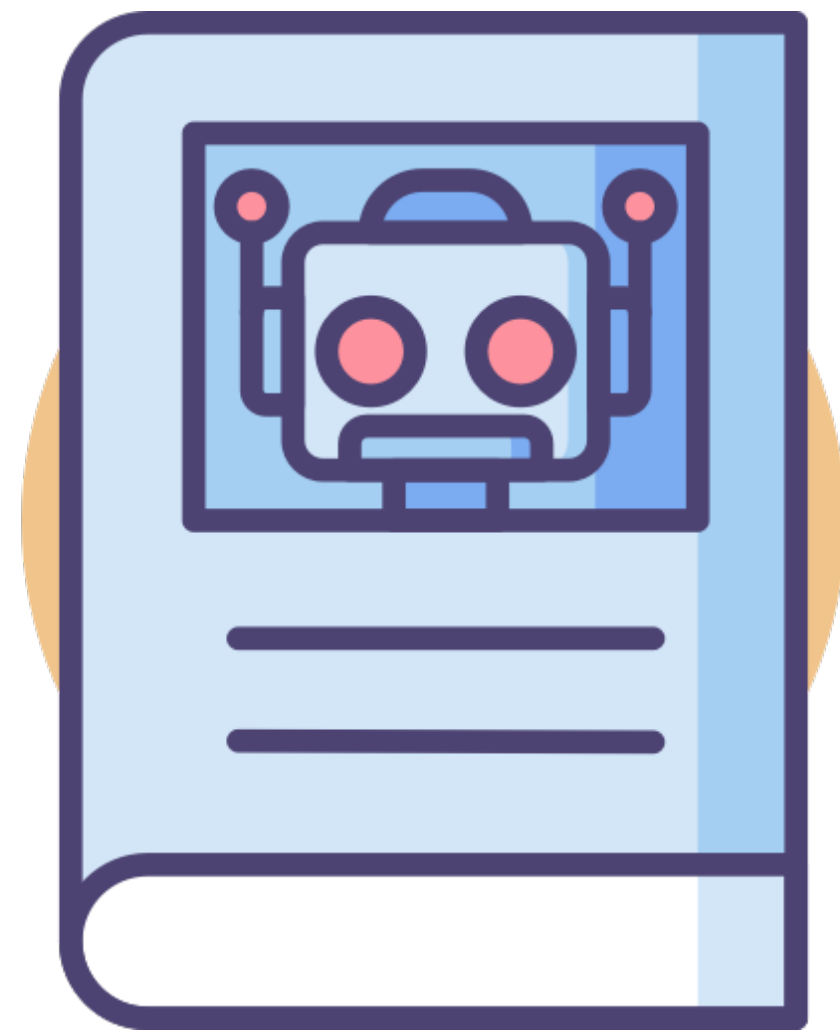

# **We're focused on...**

- **Practical solutions**
- **Writing machine learning code**

Steps in a full machine learning project

What we're going to cover

**1. Create a framework**

**2. Match to data science  
and machine learning  
tools**

**3. Learn by doing**

**Yes**

**No**

Write code

Overthink the process

Make mistakes

Try make things perfect

Build projects

Build things from scratch

Learn what matters
